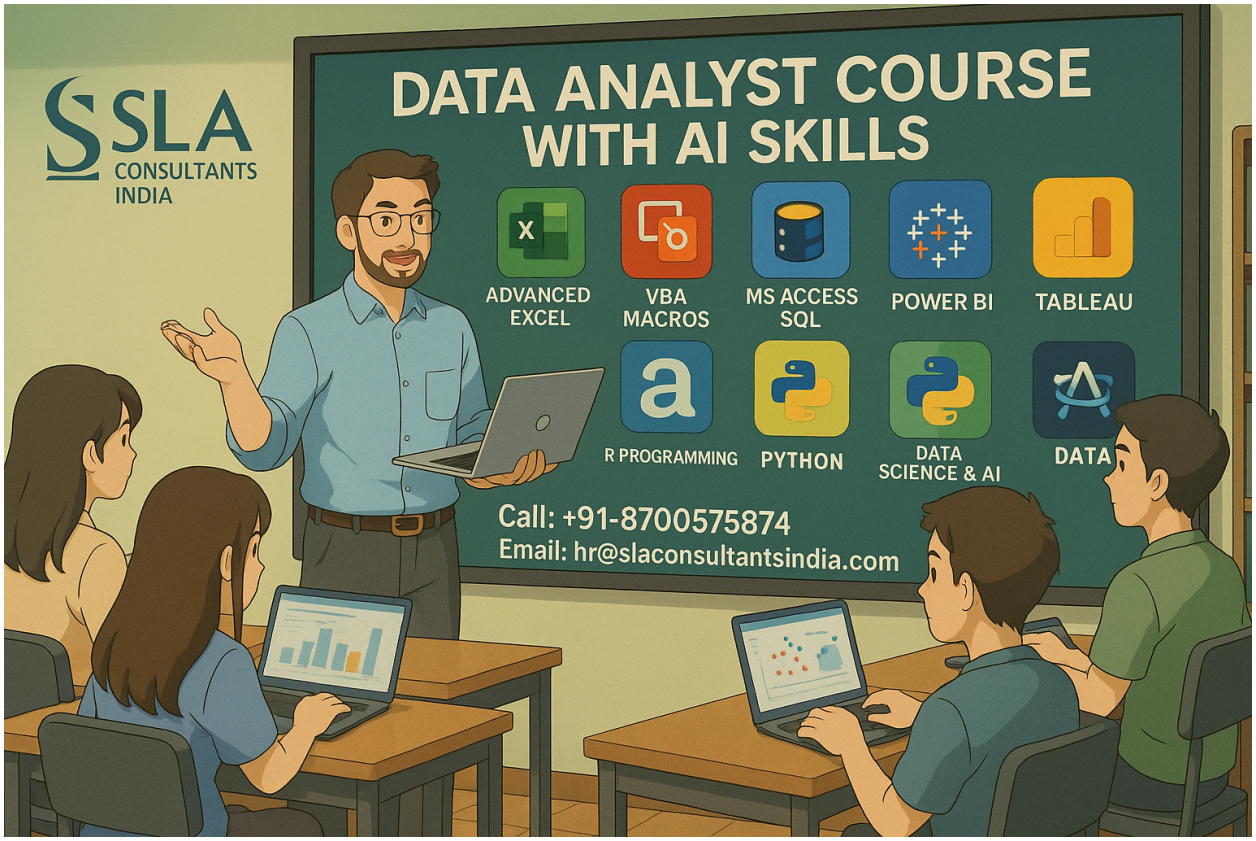
Master In Data Analyst Course in Delhi, 110042 - "New Year Offer 2026" Free Alteryx and "Data Science Course" [with IBM Certification Support] @ {SLA Consultants} "100% Job Guarantee"



The Master in [Data Analyst Course in Delhi](), 110042 offered by SLA Consultants India under the “New Year Offer 2026” is a comprehensive, career-focused program designed for graduates and working professionals who want to build a strong future in data analytics. This advanced course is structured to cover both foundational and professional-level analytics skills, enabling learners to work confidently with real-world business data. The curriculum starts from core concepts such as statistics, data handling, and business understanding, and gradually moves toward advanced analytical techniques used by top organizations. With a strong emphasis on practical learning, students gain hands-on experience through live projects, case studies, and industry-based assignments that reflect actual corporate challenges faced by data analysts today.

A major highlight of this **Data Analyst Training in Delhi** is the inclusion of free Alteryx training and a complete Data Science Course as part of the New Year Offer 2026. Alteryx is widely used for data blending, preparation, and advanced analytics, and mastering it gives learners a competitive advantage in the job market. Along with Alteryx, the Data Science module introduces Python, machine learning concepts, data visualization, and predictive analytics, helping students expand beyond traditional data analysis roles. The course also offers IBM certification support, which adds strong global credibility to the learner's profile. This certification support helps students prepare for internationally recognized credentials, increasing their chances of securing high-paying roles in analytics and data-driven domains.

SLA Consultants is well known for its industry-aligned training approach and expert faculty who bring years of corporate experience into the classroom. The Master in Data Analyst Course in Delhi, 110042 is taught by professionals who have worked on real analytics projects across domains such as finance, banking, marketing, operations, and IT. Students receive personalized mentorship, doubt-clearing sessions, and continuous performance evaluation to ensure steady skill development. The training methodology focuses on tools such as Excel, SQL, Power BI, Tableau, Python, Alteryx, and advanced analytics techniques, making learners job-ready from day one. Flexible batch timings, weekend options, and practical lab sessions make this program suitable for both freshers and working professionals.
